DIVING & SNORKELING IN CRYSTAL RIVER

Every year the West Indian Manatee seek asylum from the lower water temperatures during the winter months. They congregate in the warm, spring-fed waters of Crystal River, Florida. They often approach snorkelers and divers closely, presenting great opportunities to observe them in their natural habitat. They also make fantastic subjects for underwater photographs.

In addition to our manatee snorkel tour, we will also be visiting two other famous dive sites in the freshwater springs of Florida! Day 1 of diving will be located either at Blue Grotto or Devil's Den, and then Day 2 we will finish off the weekend with a drift dive down Rainbow River.

ACCOMMODATIONS: Holiday Inn Express
